

## X-RAY INDUSTRIAL FILM VIEWERS WALL MOUNTED MODELS

Gammatec Industrial Film Viewers provide accurate viewing of gamma and x-ray radiographs for on-line mobile darkrooms, laboratories and offices.

To view the films, the operator simply switches the unit on and places the film on the illuminated screen. Simply adjust the Dimmer to control the required light intensity.

The viewer housing is made from robust moulded PVC and aluminium materials making it light, practical, resistant to developing & fixing chemicals and easy to clean.

All lamps and components are easily accessible by simply removing the screws on the viewing screen.

This instrument is manufactured in South Africa by Gammatec and complies with the requirements of ASTM E 1390 – 06.

## Technical Data
